- 🌐 [Portfolio Site](#)

PROFILE

Technically driven and hands-on AV student with experience in AV system setup, signal routing, and on-site troubleshooting. Strong understanding of audio-video signal flow, control systems, and live production workflows, with practical exposure to lighting programming and show control environments across education and live worship settings. Seeking opportunities to contribute to AV system integration projects while further developing expertise in installation, commissioning, and system optimisation.

EDUCATION

Nanyang
Polytechnic
2024 - 2027

Diploma in Infocom and Media Engineering – Specialised in Media Technology & Systems

Diploma programme covering computer programming, web development, networking, and specialised AV systems and infrastructure.

Canberra
Secondary School
2020 - 2023

Singapore-Cambridge GCE O-Level Graduate

Singapore-Cambridge GCE O-Level Graduate, achieving an L1R5 score of 13 and L1R4 score of 10.

Endeavour
Primary School
2014 - 2019

Singapore Primary School Leaving Examination

Accomplishment of the Singapore Primary School Leaving Examination, attaining a T-score of 224.

EXPERIENCE / PROJECTS

Hope Singapore
2026

Audio System Install

Set up and installed an audio rack and loudspeaker system for a multi-function community space.

Nanyang
Polytechnic
2026

Astera Tube Lighting Set-up and Programmer

Designed and set up an Astera tube lighting rig (Pixel, Titan, and Helios Tubes) and programmed lighting cues using GrandMA3 for a Diploma End-Semester Showcase event.

Hope Singapore
2017 - Present

Church Video Media Graphics Team

Working with graphics for live-productions, and with video projection systems to integrate graphics and lower-thirds for broadcast as well as live LED wall projections.

Nanyang
Polytechnic
2026

Audio-Video-Lighting Project & Showcase - Lighting Project

Conceptualized and implemented a lighting show on the theme of “Born Of Fire”, featuring the song “Blood and Stone – Audiomachine”. Project received the “Best Project” and “Most Popular Project” showcase awards.

Nanyang
Polytechnic
2026

Pseudo Live-Stream Show

Anchored a team of four in the design & technical setup of a pseudo live-stream production, overseeing the production from initial concept development to final recording.

Nanyang
Polytechnic
2026

NEXO Speaker System Design and Simulation

With the use of NEXO’s NS-1 sound system simulation software, along with three other teammates we planned and proposed a loudspeaker system layout for the given venue.

Nanyang
Polytechnic
2026

AV Control System Implementation

Collaborated with a teammate to design and implement an AV system for a training room scenario using Crestron Pro3 processor. Developed an iPad-based touch-panel interface with Crestron VT Pro-e and programmed the system using Crestron SIMPL Windows.

Nanyang
Polytechnic
2025

Mock Podcast Audio Editing Project

Collaborated with three teammates, we worked on a podcast audio editing project, focusing on simple EQ, compression and spectral editing on Adobe Audition and Premiere Pro.

Hope Singapore
2025

AVL System Install & Operations

Assisted in the install and set-up of AVL system in a multi-function room. Rigging lighting fixtures, running cables, setting up simple DMX controller.

Hope Singapore
2020 - Present

Multi-Cam/Multi-Source Video Mixing + Graphics

Regular involvement in LED wall graphics projection and video mixing for small scale events. Utilising ATEM video switchers.

Nanyang
Polytechnic
2025

Responsive Movie Ticket Booking Website Design and Development

Designing and developing a ticket booking website via CSS, HTML and JavaScript/jQuery. Hosting the website locally via Wampserver and managing database via SQL Server Management.

Nanyang
Polytechnic
2025

Ubuntu Linux OS Hardening Project

explored methods to harden the operating system through native configurations and security plugins. Carried out via a virtual machine running Ubuntu OS via VMWare.

Nanyang
Polytechnic
2025

Raspberry Pi Fundamentals with Python Programming

Utilised Python programming to enable the use of various sensors to trigger changes on the LED panel to display sensor values, through a Raspberry Pi.

Nanyang
Polytechnic
2024

Personal Portfolio Website Design and Development

Designing a personal portfolio with the use of Adobe Illustrator and developing it to a website via the use of HTML and CSS.

Nanyang
Polytechnic
2024

Interactive Snake Game (PokéSnake) Via C# Programming

Designed and developed a Pokemon themed and style snake game in C#, with interactive “battle” options and point system.

Nanyang
Polytechnic
2024

Python Programming – Music Visualisation Project

With the use of Python, programming a 20 x 20 pixel panel to visualise Singapore's national anthem.

PyCharm
(Self-Initiated
Project)
2023

Simple Python Calculator Development

Introduction to Python programming via PyCharm to develop a simple in-line command Python calculator.

ACHIEVEMENTS / CERTIFICATES

Nanyang
Polytechnic
2026

QSC – Q-SYS Training Certifications

Certificates attained via completion of the training courses:

- **Q-SYS Level Zero**
- **Q-SYS Architect**
- **Q-SYS Level 1**
- **Q-SYS UCI**

Nanyang
Polytechnic
2026

GrandMA3 Operator Certification

Attained official GrandMA3 Operator Certificate through an official GrandMA3 training course.

Harman
Online Course
2026

Harman Video Essentials Certification

Completed Harman University's Video Essentials online certification course.

Nanyang
Polytechnic
2025

Certificate of Award | NYP Scholarship (Mid-Term)

Attained mid-term scholarship awarded by Nanyang Polytechnic.

Nanyang
Polytechnic
2024 - 2025

Diploma in Infocomm & Media Engineering, Directors' List

- Year 2, Semester 1
- Year 1, Semester 1 & 2

Nanyang
Polytechnic
2024 - 2026

End Semester Project Showcases

Project showcases allocated to top few works of the class:

- **Year 2, Semester 2**
 - Audio-Video-Lighting Project & Showcase - Lighting Project
 - NEXO Speaker System Design and Simulation
 - AV Control System Implementation
- **Year 1, Semester 2**
 - Personal Portfolio Website Design and Development
- **Year 1, Semester 1**
 - Python Programming – Music Visualisation Project

National Youth
Council
2024

Certificate of Achievement | Our Singapore Leadership Programme (OSLP)

Certificate of Achievement awarded for active participation and successful completion of the OSLP.

Canberra
Secondary School
2021 - 2023

Badminton CCA Team Vice-Captain

Achievements:

- 2023, National School Games (NSG) – North Zone B-boys 4th place
- 2022, National School Games (NSG) – North Zone B-boys 4th place

MOE Edusave Awards

Over four years in Secondary school, these are the Edusave awards attained:

- **Secondary 4 | 2023**
 - Edusave Scholarship
 - Edusave Character Award
 - Edusave Award For Achievement, Good leadership And Service (EAGLES)
- **Secondary 3 | 2022**
 - Edusave Scholarship
 - Edusave Award For Achievement, Good leadership And Service (EAGLES)
- **Secondary 2 | 2021**
 - Edusave Scholarship
- **Secondary 1 | 2020**
 - Edusave Scholarship

SKILLS

Practical Skills

Dante – Audio Networking
L-ISA – Spatial Audio Processing
NEXO NS-1 – Audio System Designing
GrandMA3 – Lighting Programming
Christie Pandora's Box – Media Server
OBS – Streaming & Recording
vMix – Streaming & Recording
ATEM – Video Switching
Avid Pro Tools – Audio Production & Recording
Reaper – Audio Production & Recording
Adobe Audition – Audio Recording & Editing
Adobe Premiere Pro – Video Editing
Adobe Illustrator – Graphic Design
Adobe Photoshop – Photo Editing
Adobe Lightroom – Photo Editing
Crestron Programming – Control System Programming
Extron Programming – Control System Programming
Qsys Programming – Control System Programming
AV System Set-up & Operations – Cable termination, AV equipment racking, operations of equipment
Python Programming – Python with AV
HTML, CSS, JavaScript, jQuery – Web Development
